BEDSIDE TERMINAL USER GUIDE

To turn on your bedside Terminal, touch the power button on the bottom right corner of the terminal as shown above.

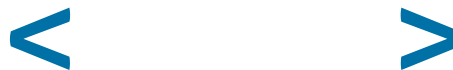

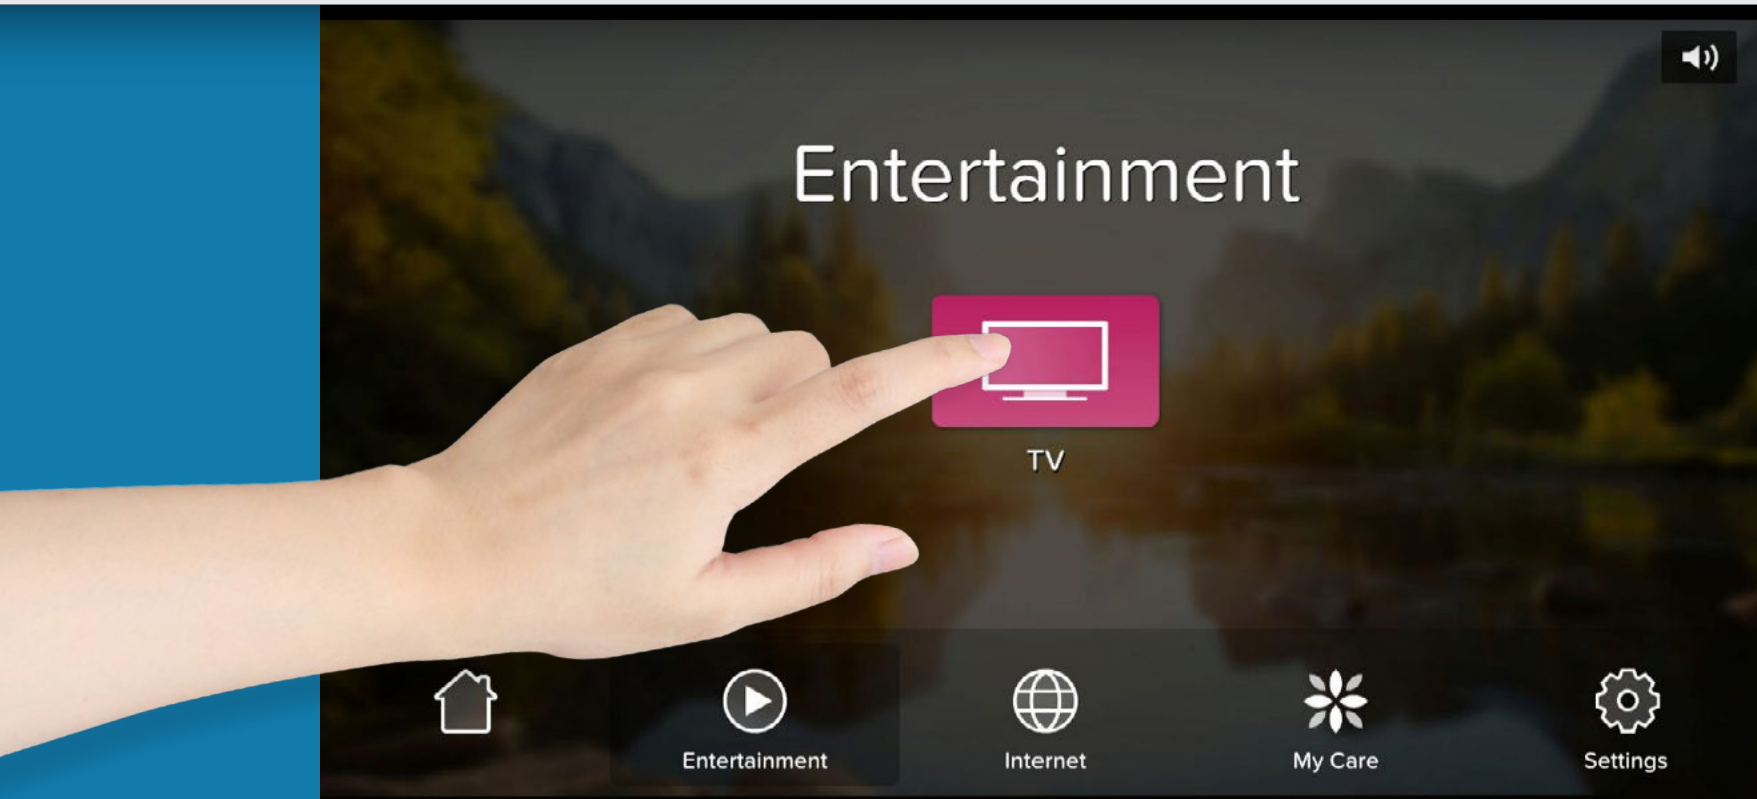

Once the Terminal is turned on,
you will see the home screen.

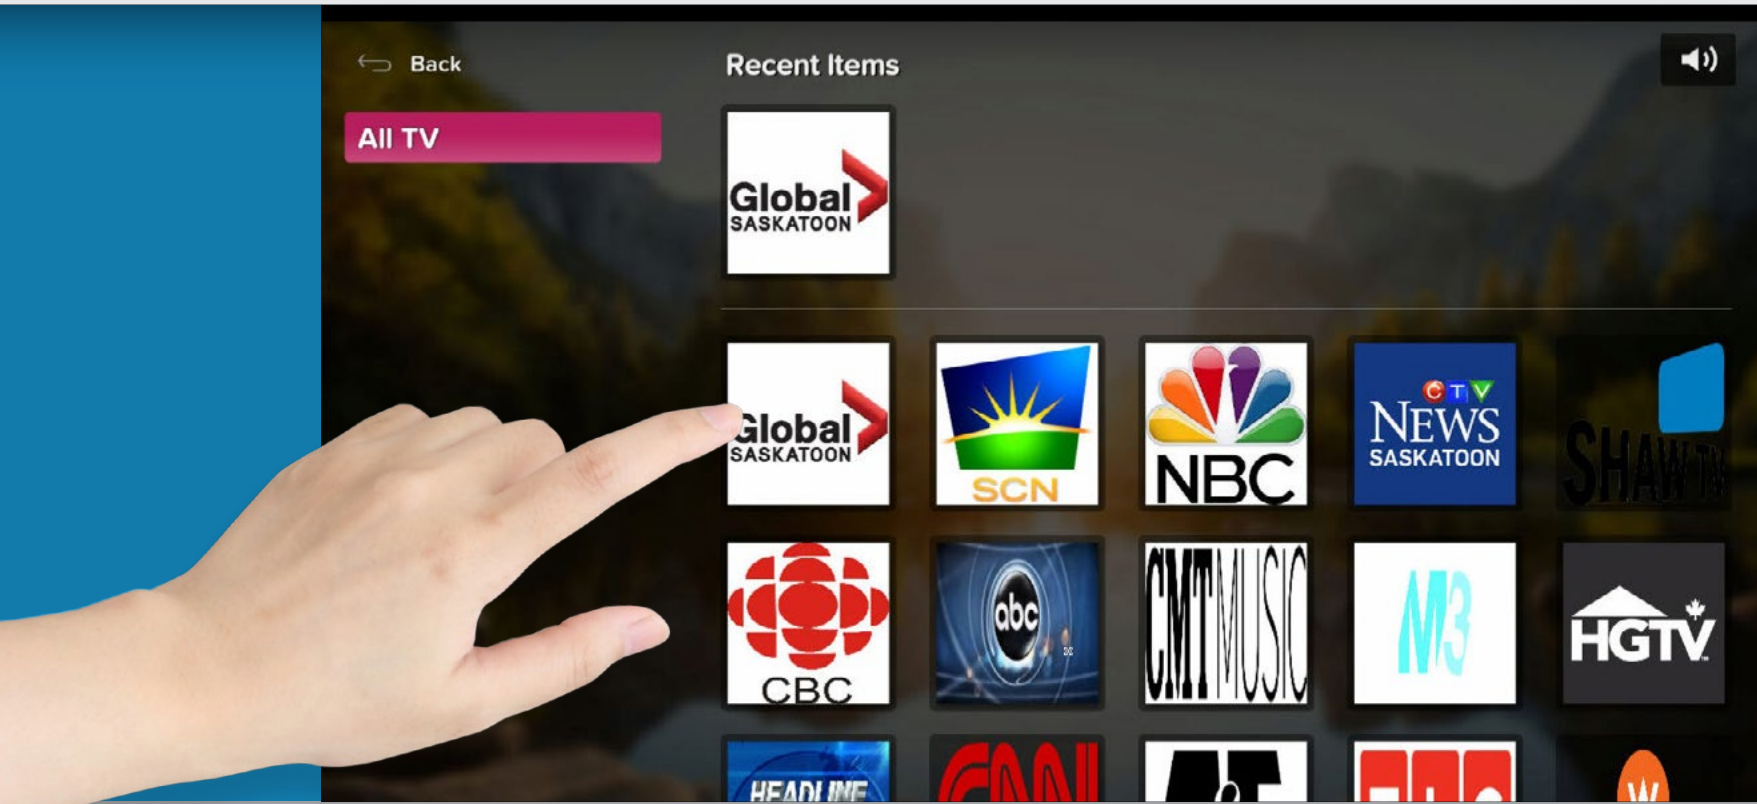

To watch TV, press the Entertainment icon found at the bottom of the homepage.

To launch the TV application, simply touch the TV icon on the screen as shown above.

Once you have launched the TV application, you will see the select your channel screen. You can select the channel you wish to watch simply by touching the logo for that channel as shown above.

To change the channel while watching TV
push the (Ch- or Ch+) button.

To return to the home page touch the highlighted button above.

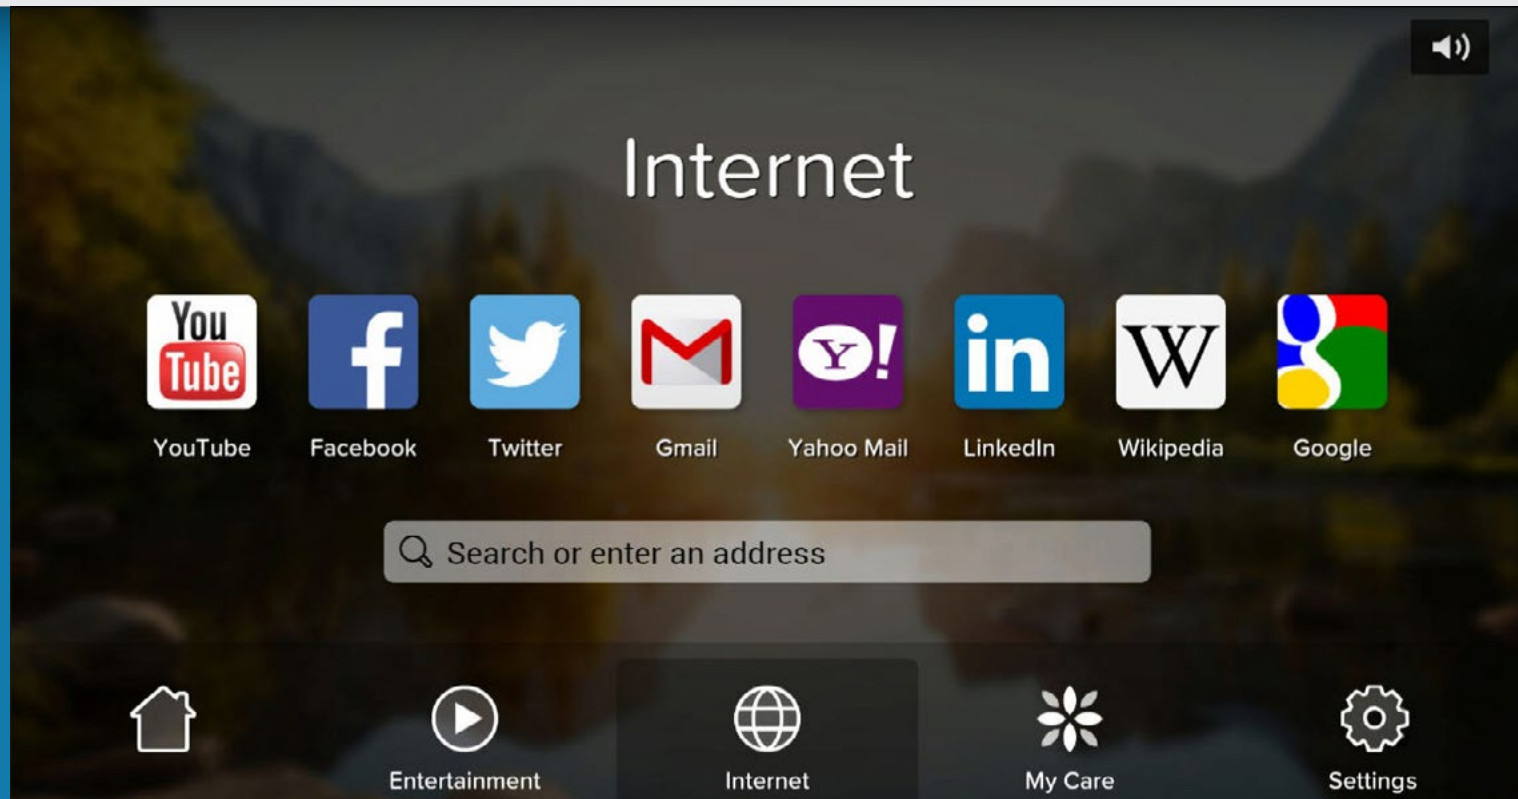

To adjust the volume touch the highlighted button above.

To launch the internet application
touch the internet icon on the home screen as shown above.

Once the Internet application is launched, you can browse online by entering your desired webpage in the search bar highlighted above or by selecting one of the favorites links provided.
